CHAROLAIS RANCH

---

INAUGURAL BULL SALE

MARCH 30th

NORTON, KS

Cattlemen,

Welcome to the Inaugural Renner Charolais Ranch production sale. We are pleased to offer bulls and females out of our 2024 picks of the Hubert Charolais Ranch, LLC cow herd dissolution. We were not part of the beginning in 1959 when Craig's maternal grandparents, Delton and Lois Hubert started our family's entrance into the Charolais breed, but we intend to build on their legacy of producing cattle that make a difference in our industry.

From our years as a 50% partner of Hubert Charolais Ranch, LLC, we have valued getting to know you. We reference past data from those sales and we look forward to producing new data from our Renner Charolais Ranch herd. Every bull and female has been 100K and PA tested which provides you with the most advanced data to make your selection.

We acknowledge that the cattle industry is in uncharted waters of great profits for the cow calf producer. In a world where pounds have never paid more, Charolais bulls are exactly what to turn out for fast growing calves to sell right off the cow. We feel our genetics will create good value at an affordable price.

All bulls and females sell as guaranteed breeders. If you are unable to attend our sale, please contact Cole Renner, Craig Renner, or bid online at DVAuction. Please join us Monday at 1:00 p.m. CST on March 30th, 2026, at the Norton Livestock Market, Norton, Kansas. We are offering 44 virgin bulls and 18 females in our inaugural Renner Charolais Ranch production sale.

Sincerely,  
Cole R. Renner

Cole and Bailey Renner

Craig and Cheri Renner

Facebook and Instagram

## **AUCTIONEER**

Joel Birdwell: (405) 368-1058

## **SALE DAY PHONES**

Cole Renner: (785) 871-7760  
Craig Renner: (785) 202-0199

## **PUBLICATION REPRESENTATIVES**

Hadley Schotte: (785) 562-6632 - Charolais Journal  
Stephen Russell: (785) 458-2650 - Kansas Stockman  
Guy Peverley: (785) 456-4390 - Stock Exchange  
Randy Rasby: (308) 539-6195 - American Cattlemen

## **SALE CATTLE PREVIEW**

Bulls and females will be relocated from our ranch to Norton Livestock Market, Saturday prior to the sale where they will reside until 1 p.m. CST sale day.

## **TERMS OF SALE**

Cash or Check. Payment in full is expected at the end of the sale unless other arrangements have been made. Absentee purchases are due within 10 days of purchase. Each Animal sells to the highest bidder and our auctioneer will settle any and all disputes with sale day announcements taking precedence over statements made in the catalog. All cattle will sell under the terms and conditions of the American International Charolais Association. All sales are final.

## **LIABILITY**

All persons who attend the sale do so at their own risk. Renner Charolais Ranch and Norton Livestock Market or other affiliated personnel do not assume liability, legal or other wise, for any accidents, injury or loss of property that may occur.

## **SEMEN TEST**

All bulls have been semen tested by Dr. Aaron White, DVM - Norton Animal Health Center

## **RETAINED INTEREST**

Renner Charolais Ranch will retain a 1/3 semen interest on each bull specified in the catalog unless superseded on sale day. Renner Charolais Ranch reserves the right to collect semen at Renner Charolais Ranch's cost, at the buyer's convenience, and with no further signing fees. Buyer will have 100% possession and 100% salvage value for the bull when his service is done.

## **GUARANTEE**

All breeding age livestock have been semen evaluated and examined to be sound. In addition to the standard Terms and Conditions of the American International Charolais Association, all breeding age livestock will be guaranteed for 90 days after buyers turn out date. This guarantee is not an insurance or mortality policy and it is not a substitute or replacement for poor management. This is a 90 day functional fertility guarantee. Buyer assumes all risk for injury when pasturing multiple bulls together, or any other management decisions outside genetic control. If a bull fails to breed and is reported to Renner Charolais Ranch and in compliance with Kansas health regulations a suitable replacement will be provided. If there is no replacement available you will receive full sale credit minus salvage value. We reserve the right to a second opinion by a veterinarian of our choice. A breeding age female who fails to breed will be returned to Renner Charolais Ranch and evaluated by our veterinarian. Credit options will be discussed between buyer and seller.

## **LOCATION**

Norton Livestock Market  
10999 Rd. E1  
Norton, KS 67654

## **VIDEOS AND ONLINE BIDDING**

Videos will be available for viewing prior to the sale at [www.rennercharolais.com](http://www.rennercharolais.com) and [www.dvauction.com](http://www.dvauction.com) register for online bidding through DVAuction, Office Phone: (402) 316-5460 or email [dva@dvauction.com](mailto:dva@dvauction.com) for presale bidding approval.

## **DELIVERY**

Delivery for the first 300 miles is free and we will cooperate on trucking expenses after that. Delivery will begin at or around mid April.

## **FEED AND CARE**

All purchased livestock will be fed and cared for with the same ration and environment they received prior to the sale until April 25th. After April 25th we will charge \$5.00/head/day

## **SALE DAY SPECIAL**

Package deal: \$100 off per Lot purchased when purchasing 2 or more.

## **MEAL**

Meal will be served starting at 11:30 a.m. CST

## **HOTELS**

Sleep Inn and Suites - Norton, KS - (785) 871-4112  
Brooks Motel - Norton, KS - (785) 877-3381  
Hillcrest Motel - Norton, KS - (785) 877-3343

# NON PARENT EPD AVERAGES

AS OF FEBRUARY 1, 2026

CE	BW	WW	YW	MILK	MCE	MTL	SC
11.2	-1.3	63.6	115.5	24.8	9.3	56.6	1.1

CW	REA	FAT	MARB	TSI
26.6	0.73	0.016	0.15	269.98

## EXPECTED PROGENY DIFFERENCES

**CE** **Calving Ease Direct** is expressed as a difference in percentage of unassisted births in first calf heifers. A higher value indicates greater calving ease. It predicts the average difference in unassisted births with which a sire's calves will be born when bred to first-calf heifers.

**BW** **Birth Weight EPD** The expected difference in average birth weight (pounds) of progeny. Birth weight reflects prenatal growth. (A lower value indicates the difference in average birth weight)

**WW** **Weaning Weight EPD** The expected difference in average weaning weight of calves. The evaluation reflects the genetic influence on pre-weaning growth rate.

**YW** **Yearling Weight EPD** The expected difference in average yearling weight of progeny. The evaluation reflects genetic influence on both pre-weaning and post-weaning growth rate.

**MILK** **Maternal Milk EPD** The genetic ability to express pounds of weight through dam's milk.

**MCE** **Calving Ease Maternal** is expressed as a difference in percentage of unassisted births in first calf daughters. A higher value indicates greater calving ease.

**MTL** **Total Maternal EPD** A value to predict the weaning weight due to genetics for growth and maternal ability. Total Maternal is calculated by adding ½ the WW EPD to the Maternal Milk EPD.

**SC** **Scrotal Circumference EPD** The expected difference in scrotal circumference (expressed in centimeters) of a bull's or dam's male offspring at yearling compared to progeny of all other animals evaluated.

**CW** **Carcass Weight EPD** Expected progeny differences for Carcass Weight is a predictor of pounds of retail product at a constant age endpoint. Carcass Weight EPD are expressed in pounds and is a predictor of the differences in hot carcass weight at an age constant endpoint.

**REA** **Ribeye Area EPD** Expressed in square inches and results in larger ribeye's and lower yield grades.

**FAT** **Fat Thickness EPD** Expressed in inches, decreased fat should result in lower yield grades.

**MARB** **Marbling Score** A primary component of USDA Quality grade, selection for increased Marbling Score should result in cattle with higher quality grades at the same age endpoints.

**TSI** **Terminal Sire Index** Is a formal method of combing many EPD traits into one single value. The TSI represents a dollar index per terminal progeny produced, ranking them for profit potential. Example: If Sire A's index is \$191.00 and Sire B's index is \$200.00, then we would expect Sire B's offspring to average \$9.00 more net return than Sire A's offspring.

Reference Sire: LT TRIUMPH 1299 PLD

AICA: M959428

Offering his 3rd calf crop is our 100% owned stud, Triumph. He was purchased from Lindskov's in 2022 and has been in heavy use since. Triumph ranks in the top 10% for carcass weight and in the top 2% for Ribeye area throughout the industry. Last year in the 2025 sale, his sons grossed \$263,500, averaging \$9,410 a head - high selling lot, HCR Trump Card 4107 sold to John Allison, New Castle, KY for \$50,000 and was raised by first calf heifer, Miss HCR Electra 2140 who resides on our ranch. Aside from bulls, he throws equally impressive daughters who are more than welcome to stick around our herd. This sale we showcase 13 heaving hitting Triumph sons and 3 females. Conventional LT Triumph 1299 PLD semen can be purchased for \$25/straw, \$35/signing fee.

**SELLING 2/3 INTEREST AND FULL POSSESSION**

Leading off the Triumph sons is Mr. Commissioner. His moderate build paired with his mass and thickness makes for a very eye appealing package. Mr. Commissioner may be the biggest boned Triumph son we've ever raised and he's as sound as you can make them. If you're looking for a bull who can cover a lot of ground to get the job done, look no further than Mr. Commissioner. His dam has weaned 4 sons with an average WW ratio of 106. His maternal brothers are working on the ranches of Cannonball Cattle, Scott City, KS, Nick Colson, Mankato, KS and Maddux Ranch, Mooreland, OK. Like his sire, Mr. Commissioner sports a REA EPD in the top 2%.

### SELLING 2/3 INTEREST AND FULL POSSESSION

"Here's to Old Glory" - named for genetics that have proved themselves year after year on our ranch. The LT Triumph 1299 and LT Pyramid 6164 is a cross that we salute. Old Glory has been a pasture favorite for his structural soundness. His dam, Miss HCR Paige 9124 PLD has placed sons in the herds of Axtell Cattle Company and Ron Siruta. Another cool fronted, moderately built Triumph son with numbers cattlemen like to see.

A Triumph son with an extra top dimension and width of base who makes you take a few extra steps to get around his rump. The LT Triumph, LT Pyramid cross flat works. Another high performance bull that will be sure to add those extra pounds at weaning. Not only should fed progeny wean heavier, but likewise perform more efficiently in the feedlot phase.

A more moderately framed Triumph son. Full brother was purchased by Todd Schnuerle, Bloomington, NE and a Maternal half brother covers cows in Jeff Gerstberger's herd. Pounds pay and he's in the top 25% for TSI in the industry.

PLD owned by Doll Charolais Ranch and Thunderhead Charolais. He has a desirable 72 lbs birth weight and ratioed 106 at weaning. Feel confident covering any cow of any age in your herd without sacrificing weaning weight.

Back on the LT Triumph, LT Pyramid 6164 cross. This smooth sided bull's full sister sold last year to Barrett Strunge as a yearling open heifer for \$8,000. If your ranch is seeking a herdsire that can increase the terminal value of the next calf crop, you can't go wrong with a Triumph out of a Pyramid.

Maternal Grand sire of Lot 11

This is one of the youngest bulls we have to offer. You will be pleased with the structure and muscle he will pass on to his calves. He's an attractive, athletic bull that ranks in the top 5% of the industry for REA and top 30% for Carcass Weight. His granddam, Miss HCR Shana 5121 PLD was purchased by Full Circle Cattle Co. in 2023. She was one of my favorites and we are grateful to have another daughter of hers working in our herd.

The more moderate framed Triumph son of the pair of ET brothers. Champion is an age advanced bull who exhibits a big rib cage and muscle mass. He's been a pasture favorite since the fall of 2024. We think he's the more uniform of the pair. Their dam was used as a donor cow when her daughter, Miss HCR Mattie 6002 PLD was selected as Choice of the Herd in the 2022 National Sale purchased by Full Circle Cattle Co. Here's a thick, well-built beef bull.

Standing just a frame size bigger than his flushmate, Conqueror presses down the scales with authority. Within his sire group, he holds the smallest actual birth weight of the Triumph sons we have to offer. A handful of his sisters are working in our herd. Their dam has placed bulls in the herds of Jared Bates, L&T Farms, Kolton Harting, Kenneth Moses, Scott Schertz, and Darren York.

Owned by 8 Story Farms in Altamont, MO and Lindskov's LT Ranch. Known for his exceptional growth and carcass data as well as producing elite, high performing females, we thought it would be in our herds best interest to obtain his semen. We are pleased with how well this bull has complimented our females. Citation is a Paternal brother to LT Pyramid 6164 - both sired by LT Sundance 2251 who needs no introduction - Renner Charolais Ranch showcases this superb bloodline in two sire groups by offering you a handful of Pyramid grandsons as well. This sire group stands out in this Sale with their performance data and phenotype. Get one while you can.

#### SELLING 2/3 INTEREST AND FULL POSSESSION

Arguably the most complete bull in this selection. Reference has caught my eye all summer long as well as in the weaning pen. Here he is pictured early September. You'll like this one. A nicely patterned stud backed by an outstanding dam whose udder quality is unmatched. His dam, Miss HCR Patsy 1145 PLD has placed a bull in Gerstberger Inc.'s herd. Look him over and see what you like. He's got a solid set of numbers that complement his phenotype. Pair this with his super moderate birth weight at 78 lbs and let him help shape your herd.

Lot 15

**SELLING 2/3 INTEREST AND FULL POSSESSION**

If you like old mobster movies like I do you'll know exactly why I named this bull, "The Don". He's the boss around this Ranch. The Don himself commands your attention. He is the number 1 WW and YW ratioed bull in his contemporary group and his scientific data list him in the top 10% of the industry for 7 traits. Standing head and shoulders over the rest of the offering, 5041 is a mile long, deep and wide, and is as high performing and powerful as we can make them. At 3.87 ADG his is our most efficient bull in the lineup. We believe The Don is a top-notch herd sire candidate equipped with a fresh pedigree descending from an Elder's Houlio 4H daughter combined with breed leading phenotype and genetics.

Lot 16

Another impressive Citation son who fits the bid. His granddam, Miss HCR Shana 5121 is an old personal favorite and his dam has sons working in the herds of F&DD, Burlington, CO, and Mike Rogers, St Francis, KS. Passage and his maternal brothers average just under 82 lbs at birth. Very uniform in his numbers from weaning to yearling weight boasting a 3.3 ADG. He's clean fronted, smooth shouldered, and lays in a heavy top standing on a firm foundation.

A Citation son who doesn't sacrifice a thing. He provides a very acceptable birth weight at 83 lbs paired with his birth weight EPD of -2. Genetically, he suggests you can't go wrong selling calves right off the cow or feeding them out yourself. Growth and carcass anchored by a 4 year old WCR Icon 756 daughter. His great granddam on his Maternal side continues to produce in our herd.

Rounding off our Citation sons is a nicely made, thick bodied bull. Gaining 3.43 lbs on a ration designed to grow our bulls at 3 lbs sets him above several bulls listed here. His granddam on his Maternal side Miss HCR Rushmore 7080 was one of the most moderately built females that poured performance into her offspring. Her genetic line pops up more often than not throughout our herd.

Although not pictured. These next 4 bulls are sired by the high selling lot of the 2022 Sale, HCR Bolt 1166 PLD who marketed for \$30,000 with good friend John Allison of New Castle, KY earning the winning bid. Bolt was raised by Miss HCR Leah 5518 PLD ET who has written many stories for her operation. Her dam, Miss HCR Randi 9410 PLD was a great donor cow. His sire, WCR ICON 756 P pictured above is a deep, soggy specimen of a bull who is well renowned throughout the industry. Bolt checks a lot of boxes with his pairing of his maternal bloodline and being sired by WCR Icon 756 P. With Maternal traits as important to us as carcass traits at Renner Charolais Ranch, you will not want to overlook this set of Bolt sons.

Reference Sire: WCR ICON 756 P  
AICA: M895832

Another Bolt son who doesn't skimp on Maternal traits plus he showcases performance. He ranks in the top 30% for WW, YW, Milk, MTL, and CW. His dam has placed a bull in the herd of Ron Fulghum, Glade, KS, a yearling heifer to Reigns Ranch, Mora, MN, and a first calf heifer pair in the herd of John Winkel, Glen Elder, KS. Also, his great granddam, Miss HCR Leslie 5016 PLD continues to produce in our herd.

Good birth weight EPD paired with an upscale ADG of 3.33 lbs. Firebolt's dam is the Maternal sister to our herd sire HCR Pyramid 9072 and has weaned 4 calves with an average WW ratio of 104.75. His granddam, the prolific Miss HCR Sofie 5070 PLD has weaned 8 calves as of 2025. A nicely built Bolt son who displays a pleasant side profile.

### SELLING 2/3 INTEREST AND FULL POSSESSION

Pay attention here. White Flare is our meat wagon of the bunch. He offers a great set of testicles, good feet, and a tremendous body and design to make the next generation even more functional. He sports a 114 WW ratio and a 106 YW ratio ranking him in the top 3 amongst his peers. You will find him in the pen and you will like what you see.

**REFERENCE SIRE HCR NAUTILUS 2148 PLD**

Another Sire out of the cornerstone bloodline of Miss HCR Leah 5518 PLD ET. His sire, HCR Centurion 0210 PLD boosts performance no matter what cow you pair him with. Nautilus follows suit pouring his Genotype into his offspring as you will see in their Average Daily Gain. This is the second calf crop offered out of Nautilus - bought by Reigns Ranch, Mora, MN in the 2023 production sale for \$51,000. Here are 3 rugged sons ready for breeding season.

**SELLING 2/3 INTEREST AND FULL POSSESSION**

Notorious is one cool cat with numbers to boot. He offers that rugged look many commercial cattlemen select for when picking their herd sire. On the maternal side, he's as good as any. A performance bull with enough style to produce highly productive females. His full brother sold in 2025 to Ethan Schwarz, Oakley, KS for \$9,000 and his maternal sister sold to Troy C Brown in Montpelier, ND. He stems from a very productive dam who also has sons working for Jared Beckman and Dallas Volk.

Here is a long sided and thick topped Nautilus son. This powerful, rugged bull was raised by a 10 year old dam. We strive to produce good stock at Renner Charolais Ranch and this stud's dam has done nothing short of that. Miss HCR Stella 5045 PLD continues to produce for our herd. Easy for her to do when her udder quality hasn't changed in 11 years. You'll find a Maternal sister of his towards the back of the catalog for our Inaugural Production Sale offering. Take both home and reshape the base of your cow herd.

The highest marbling of the trio of Nautilus sons we offer you. He's a great footed, long made, and heavy muscled bull that will add length and weight to a set of calves. 5075 goes back to that same cow family as Lot #26 on the Maternal side of his dam - Miss HCR Randi 9410 PLD.

Reference Sire: LT Atlas 0251 PLD  
AICA: M943509

I'll admit I was late to the game using Lindskov's LT Atlas 0251 - these calves do not disappoint. His progeny have spread throughout the Nation like wildfire. This sale we offer you 3 sons and a daughter out of this Patriot Powerhouse. Renner Charolais Ranch used Atlas exclusively on heifers during the 2024 breeding season. He is backed by science-based numbers and 5 years of data from his calfcrops. Calving Ease: +18.3 (5%), Birth Weight: -6.2 (3%), Yearling Weight: +137 (15%), Carcass Weight: +44 (3%), Ribeye Area: +1.09 (4%), Terminal Sire Index: +311 (4%). His sons reflect his EPD's. Sleep well at night, but don't forget to check on your calves every so often - you won't recognize them with all their growth.

We lead off the Atlas sons with a bull who steaks his claim as being in the top 25% of 9 traits. Calving Ease and a super low birth weight? Check. Great yearling weight EPD and top-notch carcass data? Check. Not only is he good on paper, add in his cutting-edge pedigree and his value grows. At weaning he was behind the bunch, but he has worked his way right up to the middle of some very good bulls.

### SELLING 2/3 INTEREST AND FULL POSSESSION

Worldwide showcases a very impressive EPD profile. His Calving Ease and Birth Weight, although not industry leading, are very sound and not to be overlooked. He lacks no performance pressing down the scales at 777 lbs at weaning. Did I mention he's out of a first calf heifer? An elite product of an Atlas sired calf out of a Centurion daughter. He is one of the widest topped, thickest rear ended bulls we have raised this year. An ultra attractive bull whose blend of breed leading growth figures and stunning phenotype sets him up as a feature herd sire.

### SELLING 2/3 INTEREST AND FULL POSSESSION

A lot to be said about this bull here. If you know his pedigree, then you know what The American brings to the table for this industry. Perhaps one of the most uniform, long made, good footed, and heavy muscled bulls to come out of our herd. Genotypically he is nothing short of an industry leading powerhouse. The American positions himself in the top 25% of 11 different traits. Bulls like this really get me excited for the future. His dam, Miss HCR Afton 213 P ET is a full sister to the renowned HCR Centurion 0210 PLD. Their dam, Miss HCR Sheena 3021 PLD sold in the 2023 sale as a donor cow to Reigns Ranch, Mora, MN garnering \$20,000 where she continues to be in heavy use.

Reference Sire: LT PATRIOT 0065 PLD  
AICA: M941963

A cleanup bull who does it every year. This stud is deep, big boned, square hipped, and moves like a cat. A true gem during our former partnership who phenotypically resembles his sire. All of his sons we offer are age advanced and have that herd-bull look. Select with confidence in an 18 month old LT Patriot 4004 PLD grandson as you view this catalog.

## AGE ADVANCED PATRIOT SONS

Lot 32

### SELLING 2/3 INTEREST AND FULL POSSESSION

Getting back into the age advanced offering, Soldier is one to pinpoint. One of the most impressive bulls in the entire sale with tremendous length, depth, and stoutness. The need will continue to grow for cattle with higher weaning weights backed with frame and muscle to fill the demand for beef. We think bulls like 4505 will be leading the charge. 3 of his dam's sons have left the sale ring averaging \$9,000. They continue to work in the ranches of Bruce Algrim, Ken Moses, and J&S. Miss HCR Bonita 5054 PLD is a high performing female, weaning 4 sons with an average WW ratio of 108.25 and 4 daughters averaging 104.5.

### SELLING 2/3 INTEREST AND FULL POSSESSION

Our only HCR Centurion 0210 PLD sired calf to be offered in this Inaugural Sale. Rugged, long, and ready to breed. His Paternal sisters are always standouts in the replacement heifer pen. He traces back to some of the most functional cows we've seen and his foot and leg structure says he should make the same. Guardians dam, Miss HCR Pamela 8061 PLD was purchased by Lyle Peterson back in 2021 and she continues to produce for him. Feel confident covering cows whose calves will be sold right off the cow, or feed them out and watch them explode with growth. He ranks in the top 10% of the industry in 6 EPD's.

Our lone LT Affinity 6221 PLD son. Full brother to HCR Centurion 0210 PLD that sold in the 2021 sale to John Allison, New Castle, KY. He was not on the best recip cow and you will not see enticing individual data. What you do see is his genetic make up of traits that are still highly sought after in our industry.

Reference Sire: WCR STRATEGIC MOVE 3171 P  
AICA: M988134

Purchased by Renner Charolais Ranch from Wink's in 2024. Selected as a heifer safe bull without sacrificing growth. He didn't get a chance to breed many after a successful AI season, but don't write him off for low calf crop offerings just yet - He continues to work in our herd and covers cows like he should. To date of building this catalog his calves have averaged 71.5 lbs at birth.

Lot 37

Strategy is our youngest bull in the Inaugural Sale. Plenty of performance packed into this well made Strategic Move son. His dam, Miss HCR Skye 7031 PLD has weaned 5 sons with an average WW ratio of 107 and an average YW ratio of 105.4. Strategy's Maternal brothers are working in the herds of Jeff Gerstberger, Lyle Peterson, and Brent Wilson. We think he'd be good on heifers or cows. What's your strategy?

A Strategic Move son who had a slower start than most in his contemporary group, but don't discount him on that. He's the most moderately framed bull we have to offer, but he's built like a tank. Physically you'll admire his stout build and great foot. Impressive YW Ratio of 111 coming out of a -5 (BW) EPD - this puts him in the top 6% for this trait throughout the Charolais breed.

Reference Sire: SCHURR FIRE P863  
AICA: M994807

Schurrtop bulls have been a local favorite and we agree - We purchased Schurr Fire P863 in the Spring of 2024 to clean up our heifers and like Strategic Move, he was bought for the same reasons. His progeny are long bodied and full of muscle. Pounds pay and that's exactly what a Schurr Fire son has to offer.

Our most impressive Schurr Fire son of this duo of Paternal brothers. Ranks in the top 25% of the breed in 7 traits! Lots of red meat yield in this stud. Check out his numbers. He is good. Not only does he shine on paper, he's long bodied and built with extra muscle dimension that the cattlemen can appreciate. Charolais cattle are seeing some of their biggest premiums yet, this guy will help catch top dollar.

Reference Sire: HCR PYRAMID 9072 PLD  
AICA: M929627

Sired by the breeding machine, LT Pyramid 6164 this soggy, big footed bull has that muscle pattern and growth most cattlemen are seeking. His birth EPD's read as follows. Calving Ease: +19.3 (3%), Birth Weight: -5.3 (5%).

A dam who has been nothing but productive in her lifetime. In my opinion, she's as good as they get. She's a high quality female with a well built udder that she has maintained. Miss HCR Fresher 7107 PLD has that unique combination of practical cow character with show ring quality and attractiveness. Her offspring in the 2025 sale garnered \$77,500.00. Being a Maternal sister to high selling lot HCR Overload 0202 PLD who sold in the 2022 production sale to Doll Charolais Ranch and Thunderhead Charolais, it's her fundamental soundness that is bred into her that does it for me. A solid, heavily used donor cow, who has daughters working in our herd.

- A.I. bred on 11/22/25 to LT Global 3322 PLD ET. Pasture exposed to LT Triumph 1299 PLD from 11/25/25 to 01/06/26
- Lot #45R: Polled bull calf #5509, born 10/15/25, BW: 90 lbs, sired by LT Triumph 1299 PLD. (This bull calf does not sell in this year's production sale, but is on display with his dam and will be available for purchase in Renner Charolais Ranch's 2027 Production Sale).

Here is the cow that set the tone for all the progeny earning potential out of the legendary Miss HCR Leah 5518 PLD ET. With this in mind, I see greater marketing possibilities for her offspring. I view her as the truly versatile breeding stock that would fit any operation. Not only should she raise practical, highly Maternal herd replacements, but she won't compromise the growth and carcass genetics that are in high demand by commercial bull buyers. Reagan is the maternal sister to high selling lots HCR Bolt 1166 PLD (\$30,000) and HCR Nautilus 2148 PLD (\$51,000)

- A.I. bred on 11/22/25 to LT Governor 1560 PLD. Pasture exposed to LT Triumph 1299 PLD from 11/25/25 to 01/06/26

A Triumph daughter who has a pedigree one can really appreciate. She goes back to Miss HCR Mattie 6002 PLD who was selected by Full Circle Cattle Company as choice of the herd in 2022. Her dam, Miss HCR Delta 1134 now works in the herd of Lyle Peterson. She has a Maternal sister placed in Scott Campbell's operation as well. Alongside her is her nicely made heifer calf who is sired by the famous LT Global.

Another Triumph daughter with fame and stardom in her bloodline on her Maternal side. I see her unique phenotype and performance value fitting the mold of a highly profitable foundation female. She has a beautiful, well designed, moderate frame and an udder build that is hard to fault.

- Lot #50R: Miss HCRR Georgia 6008 PLD, born 01/13/26, BW: 61 lbs, sired by LT Global 3322 PLD ET

# PAYWEIGHT STARTS HERE

The power of payweight starts with a registered Charolais bull. Superior weaning weight matters in your operation, and every pound translates to profit. Rely on the Payweight Specialist to deliver more dollars per head per calf weaned. **To make a difference on your next calf crop, start with Charolais.**

Just look at that pedigree on her bottomsides. A problem free female with calving ease and negative birth weight bred right into her. Her balance of traits should offer more options when making your breeding decisions. She comes out a super maternal dam, Miss HCR Stella 5045, who still produces for our herd. For me, Miss HCR Sunny sets the standard for udder quality.

Pay attention here. We are offering an Atlas daughter out of a first calf heifer Triumph daughter and she is good. 7 traits ranking in the top 30% of the Charolais breed. We envision her as being a cornerstone brood cow in the making. Another advantage is she's a sounder footed female who's more correct out her hip and off her hind leg.

A very structurally sound high performing Nautilus daughter. In a breed that is a huge team player in redefining feedlot performance, I'd expect her sons to bring forth those sought after carcass genetics to satisfy the commercial bull buyer. Whether it be carcass traits or maternal traits, let 5011 put her stamp on your cowherd.

A Triumph daughter we are more than proud to showcase. Her maternal side is a bloodline that I strive to replicate every year when I make my breeding selections. She has a full sister and dam that currently grace our pastures. Recently, this Winter, we flushed her granddam, Miss HCR Sonya 3096 PLD and cannot wait until those calves hit the ground. Back to Tyra, I see her as the kind that should have tremendous production value and potentially even be of donor quality as well as the foundation of a breeding program. Take a look at those numbers and come form your own appraisal.

MISS HCR SONYA 3096 PLD  
Maternal Granddam of Lot 55

One of just two WCR Strategic Move 3171 P daughters we were able to wean from his first calf crop. Her female quality and structural advantages have shined through all summer long and I think she'll have a profound impact once in production. She keeps her calving ease and birth weight traits in check. And personally, I think she's as good as any from the profile.

A very complete, sharp-fronted Triumph daughter who has breed leading numbers in CE: +15.6 (15%) and BW: -4.7 (7%). Pair this with her pedigree and you will have a nice cow in the future. As a breeder, I see her as the kind that could offer remarkable breeding value and versatility.
